

VibeRounds: The Clinical Gym for AI-Augmented Reasoning

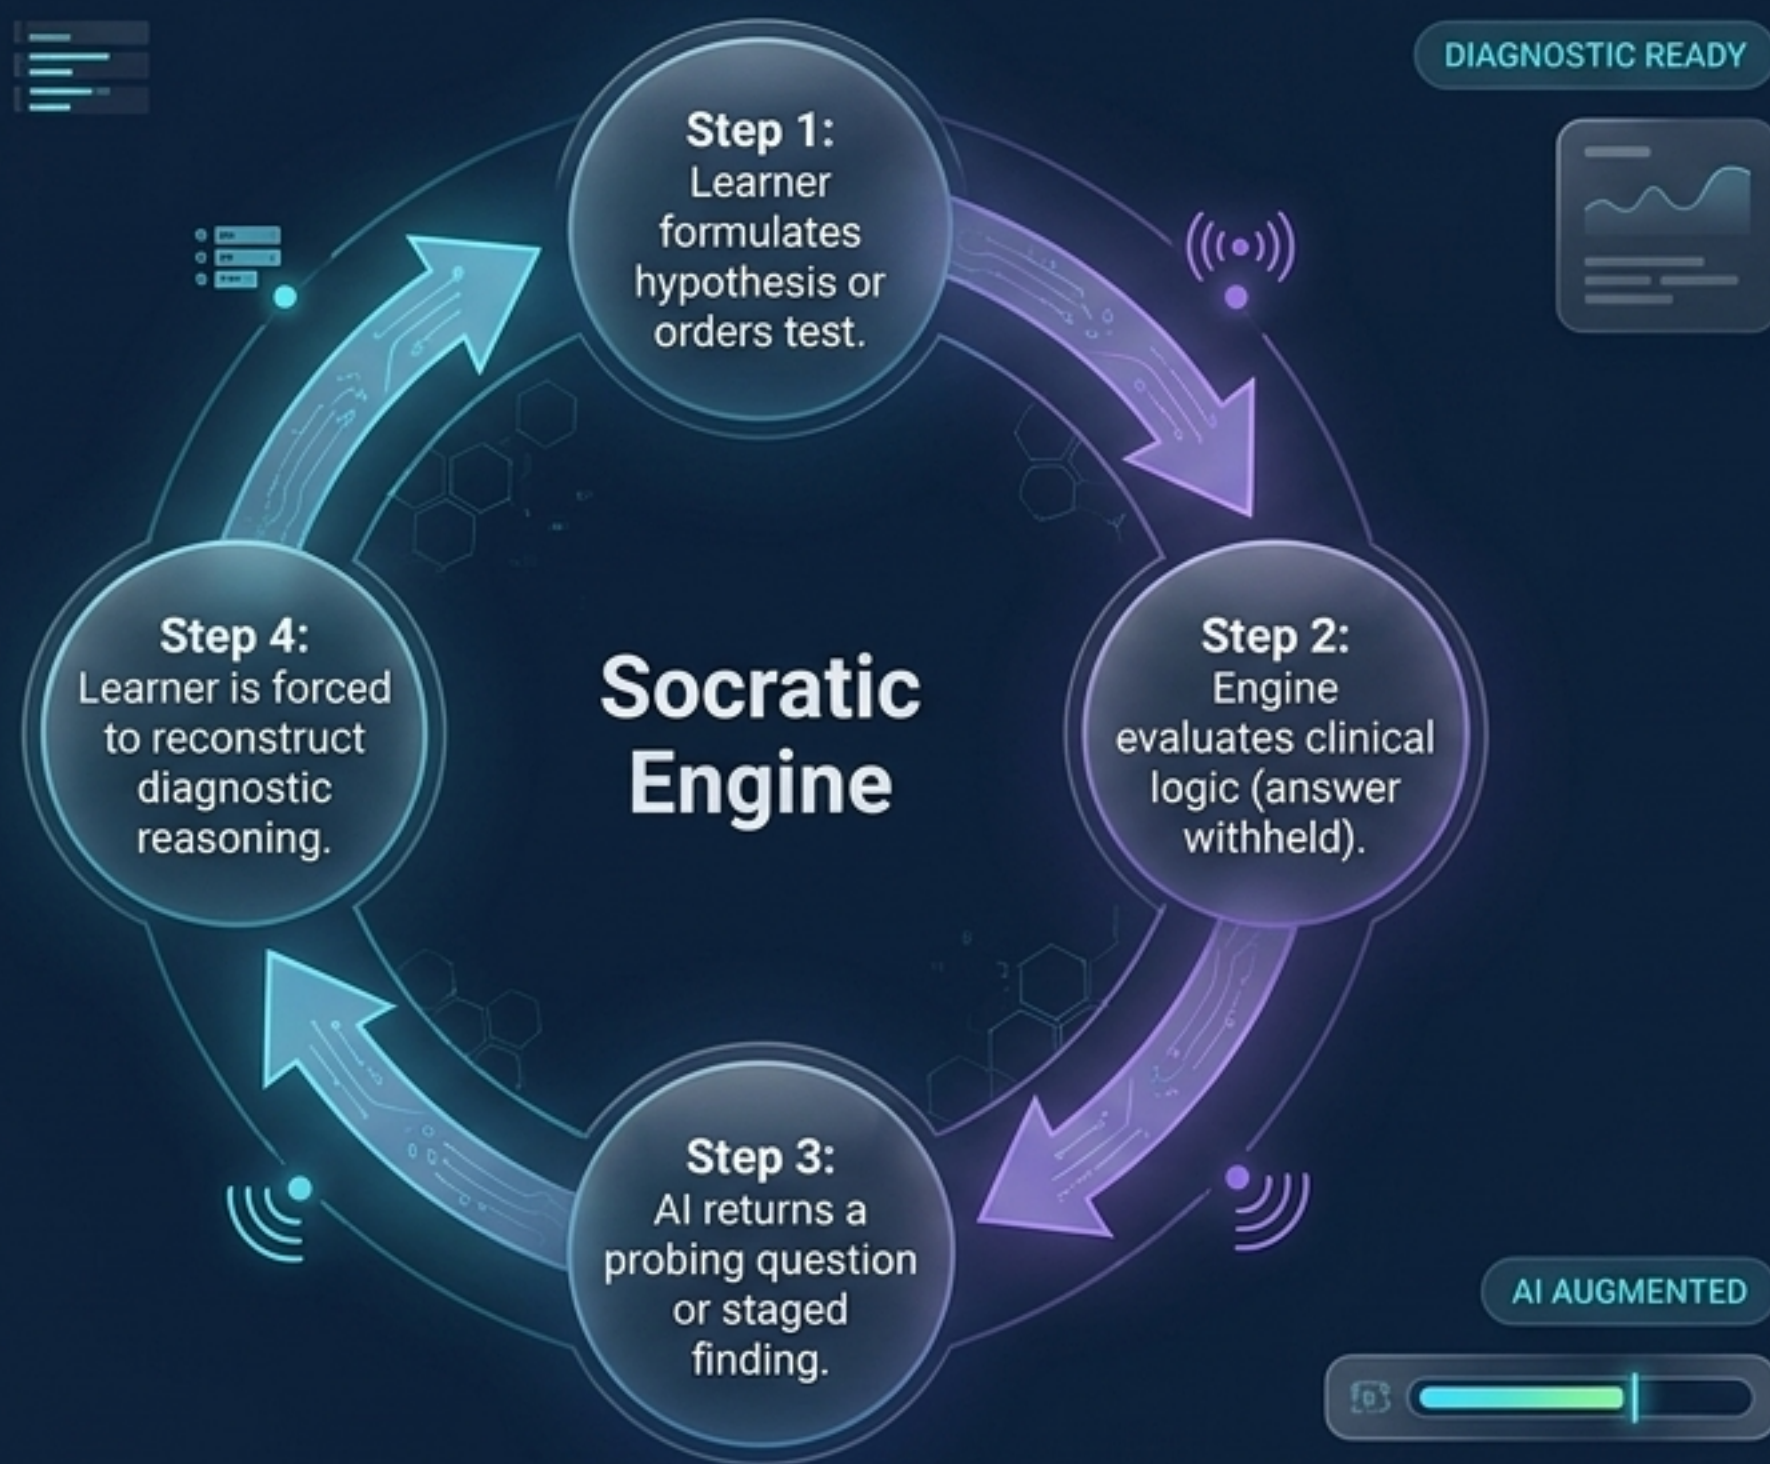

A Socratic, browser-based training suite designed for medical students, residents, and educators.

Rx: Reasoning, Not Answers

Zero Trust Architecture

Socratic Pedagogy

Rx: Reasoning, Not Answers

CLINICAL FOCUS

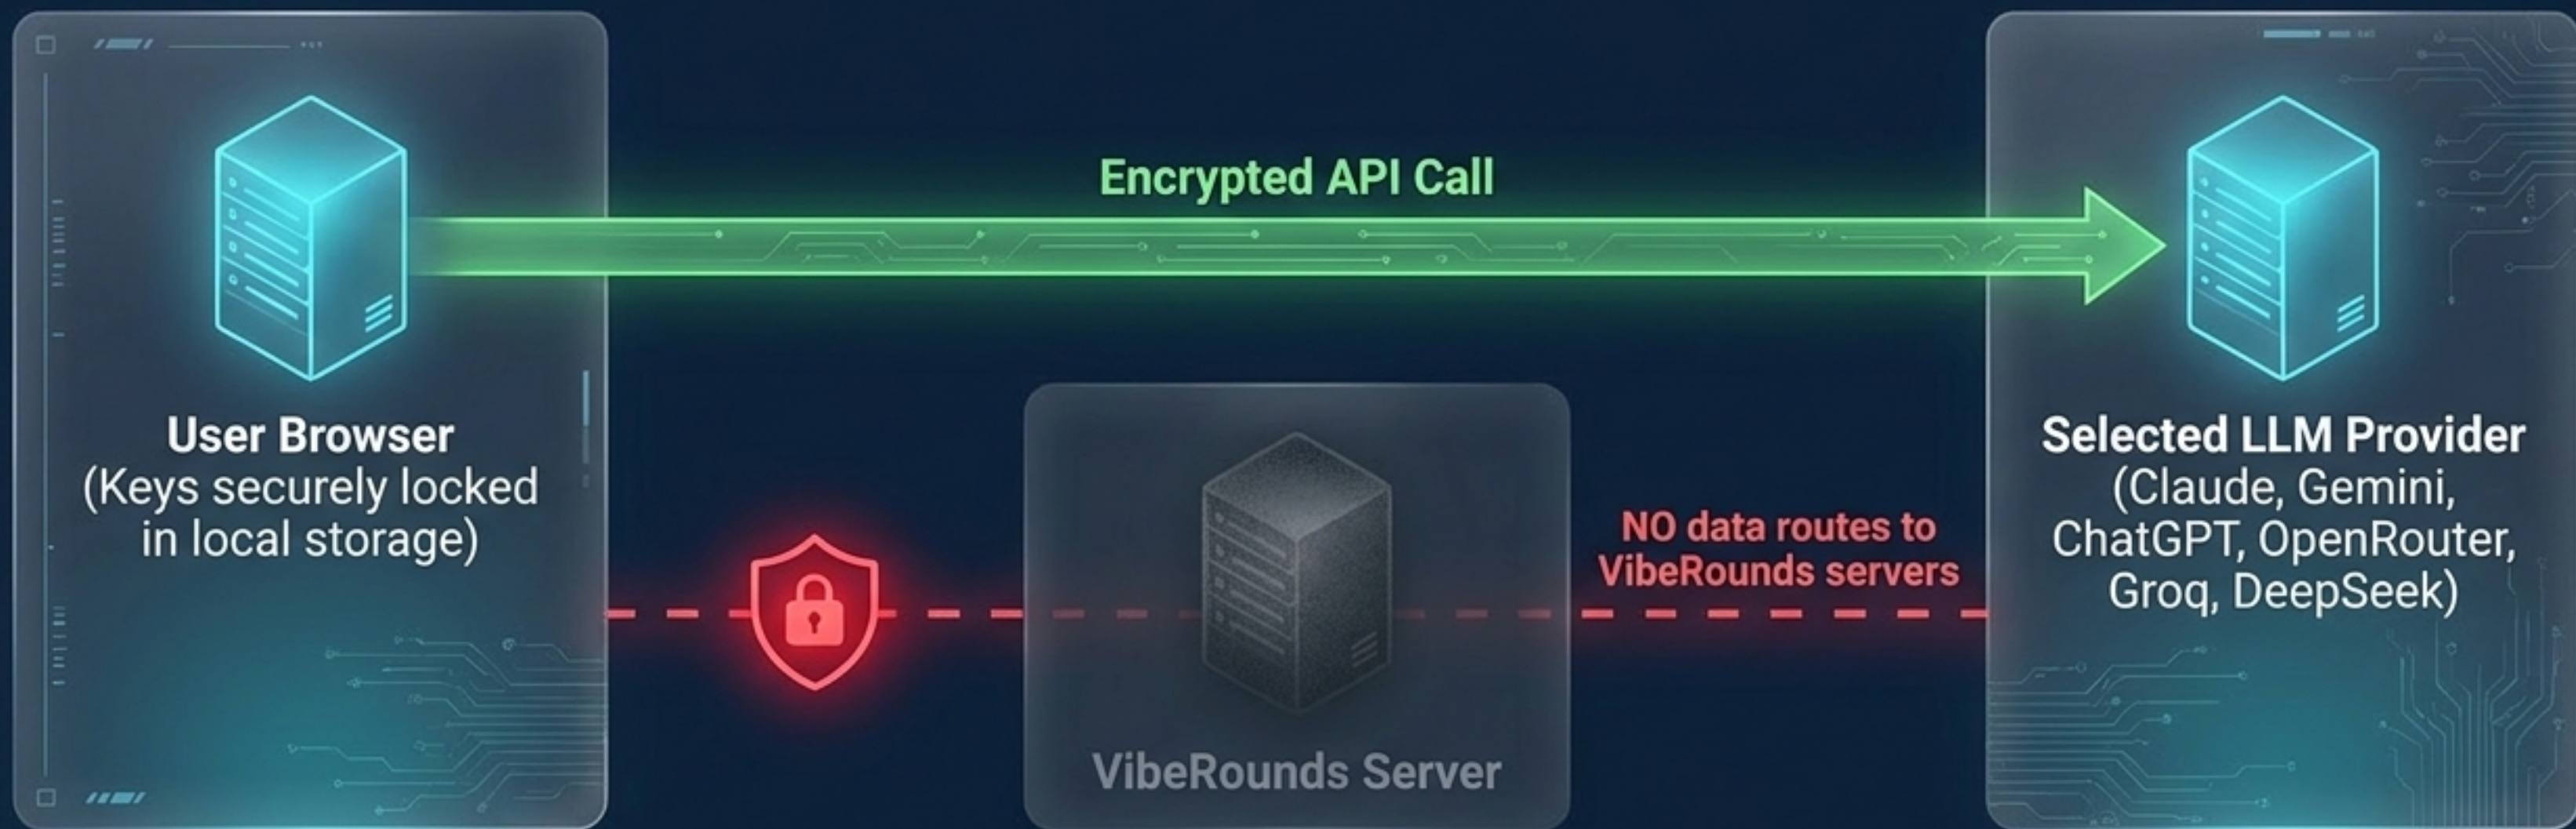

The Core Principle

VibeRounds modules are engineered around Socratic questioning, staged case reveals, and diagnostic stress-testing.

We do not hand learners diagnoses or management plans; we force them to reconstruct clinical reasoning exactly as they would in a real bedside encounter.

ACTIVE MODULE

Zero Trust, Total Privacy: The BYOK Architecture

Educational Use Only:
Strictly for training, not active patient management.

Zero Patient Identifiers:
Strict No PHI/PII policy (No names, MRNs, DOBs).

De-Identified Data:
Simulations run exclusively on openly published case material.

The Curriculum Engine: Quick Reference Topics

Samples

50

Ready-to-Use
Vignettes

Copy-paste sample vignettes distributed across all interactive modules. Tagged by specialty and difficulty.

Substernal Chest Pain in 58yo Smoker

High-Yield Scenarios

91

System-Organized
Scenarios

Clinical scenario cards for acute and moderate-yield conditions.

Filterable by specialty (Psychiatry, Cardiovascular, Respiratory, etc.).

Includes core highlights and full vignette prompts.

Deep Dive Topics

Comprehensive
Index

A complete CORE and ADVANCE topic index spanning the entire medical curriculum.

One-click copyable into any active module for instant Socratic drilling.

The Clinical Training Matrix

Phase: Foundational Knowledge

1a	Lesson Bench	Structured Deep Dives	Lecturer	Fixed
1b	Discussion	Bedside Exploration	Socratic Tutor	High

Phase: Clinical Immersion

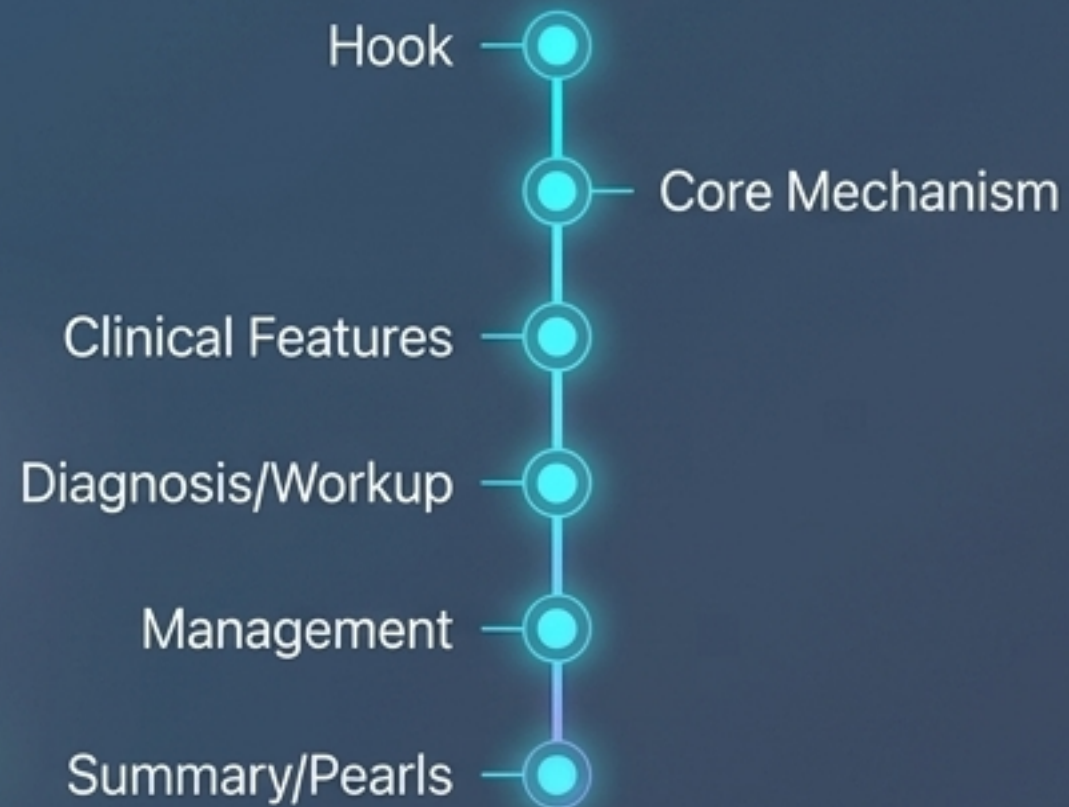

2a	Case Simulator	Live Patient Encounters	Simulated Patient	Mid-Session Variable
2b	Case Practice	Stepwise Diagnostic Reveal	Clinical Auditor	Staged

Phase: Diagnostic Stress-Testing

3a	Case Bench	Reasoning Drills	Exam Inquisitor	Fixed Protocol
3b	Level Bench	Progressive Mastery	Adaptive Examiner	L1 to L6 Framework

Foundational Knowledge: Lesson Bench & Discussion

Lesson Bench (Topic → Structured Lesson → Deep Dive)

Summarize in 3 bullets

Key differentials?

Quiz me

Configurable depth (~600 words standard)

Discussion (Socratic Bedside Rounds)

What are the first ~~miss~~ clinical symptoms because syncromoons are used for a clinical features, Management, asntmentation air and medical tuterapy?

What take with?

Deeper

Related

Zoom Out

Learners steer the conversation via Socratic dialogue.

Immersive Clinical Simulation: Simulator & Practice

Case Simulator (Full Interactive Encounters)

Live, turn-by-turn simulated patient interactions.
The learner drives history, exams, labs, and plans.

Objective Vitals & Labs - updated live

HR: 88 bpm
BP: 130/85 mmHg
SpO2: 95%
Temp: 37.4 °C

Auto-Generated SOAP Note

S – SUBJECTIVE: 52yo M presents with persistent daytime fatigue, loud snoring, witnessed apneas. Hx of HTN.

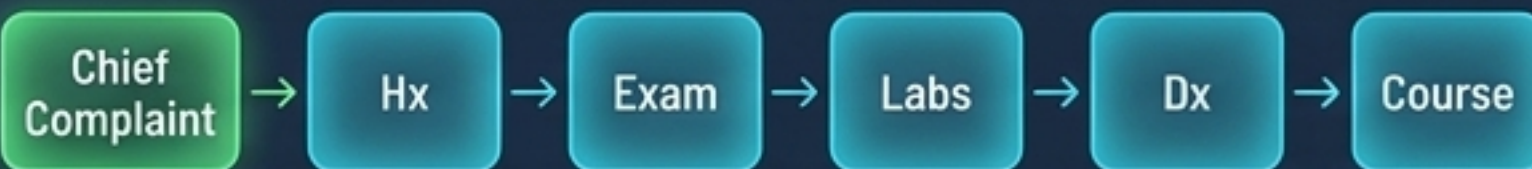

O – OBJECTIVE: BMI 32.1 kg/m². Neck circ 17.5 in. Airway Mallampati IV, enlarged tonsils.

A – ASSESSMENT: High probability of OSA.

P – PLAN: Order polysomnography.

Case Practice (Rapid Stepwise Reveal)

A staged reveal format forcing log-ins of reasoning before advancing.

Stage 1 of 6

Differential Tracker

- ☒ Obstructive Sleep Apnea
- ☐ Hypothyroidism
- ☐ Narcolepsy
- ☐ Depression

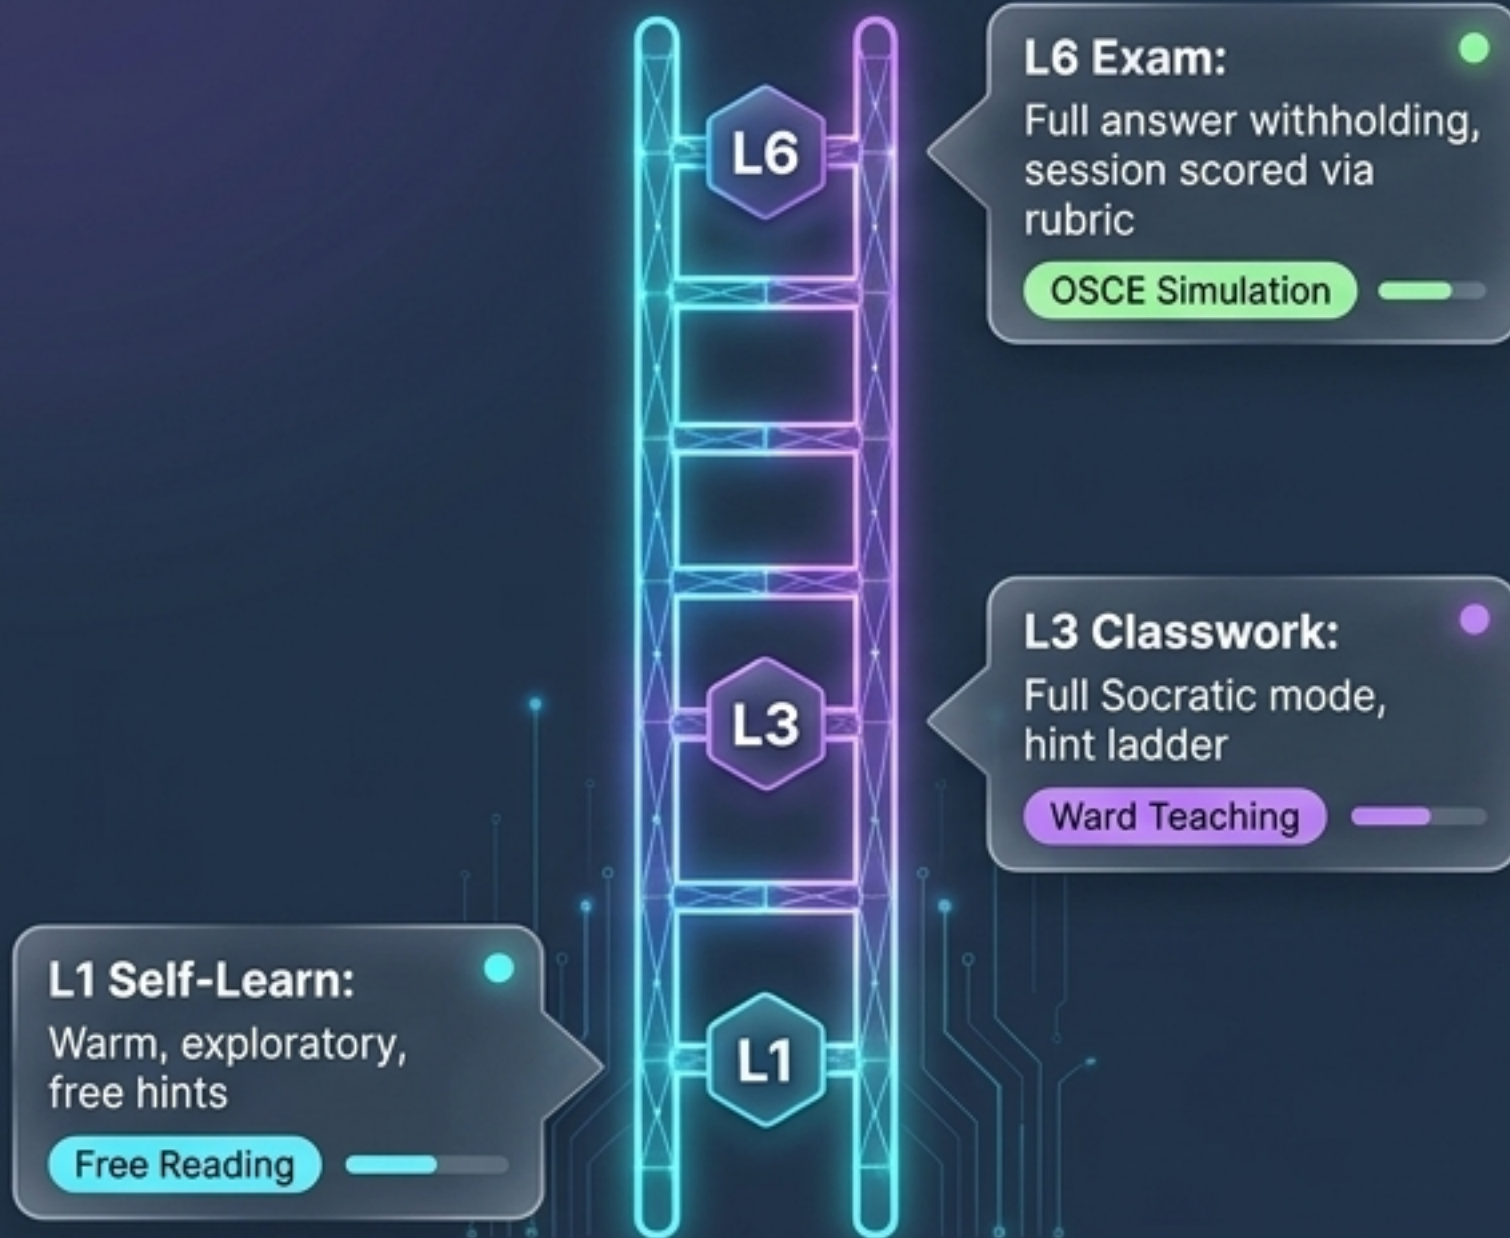

Stage Clinical Pearls

HISTORY PEARL:
Nocturnal awakenings with gasping are highly suggestive of sleep apnea.

EXAM PEARL:
Neck circumference > 17 inches in men is a significant risk factor for airway collapsibility.

Diagnostic Stress-Testing: Case Bench & Level Bench

Level Bench (Progressive Clinical Levels)

Case Bench (Socratic Case Evaluation)

Socratic Rounds

Pointed questions, forcing gap discovery.

Progress bar with a right arrow

Case Audit

Learner writes reasoning, AI audits for gaps.

Audited Progress bar

Differential Challenge

Rank differentials, probed on the weakest link.

Ranking Active Progress bar

Exam Patton MRCP Pattern

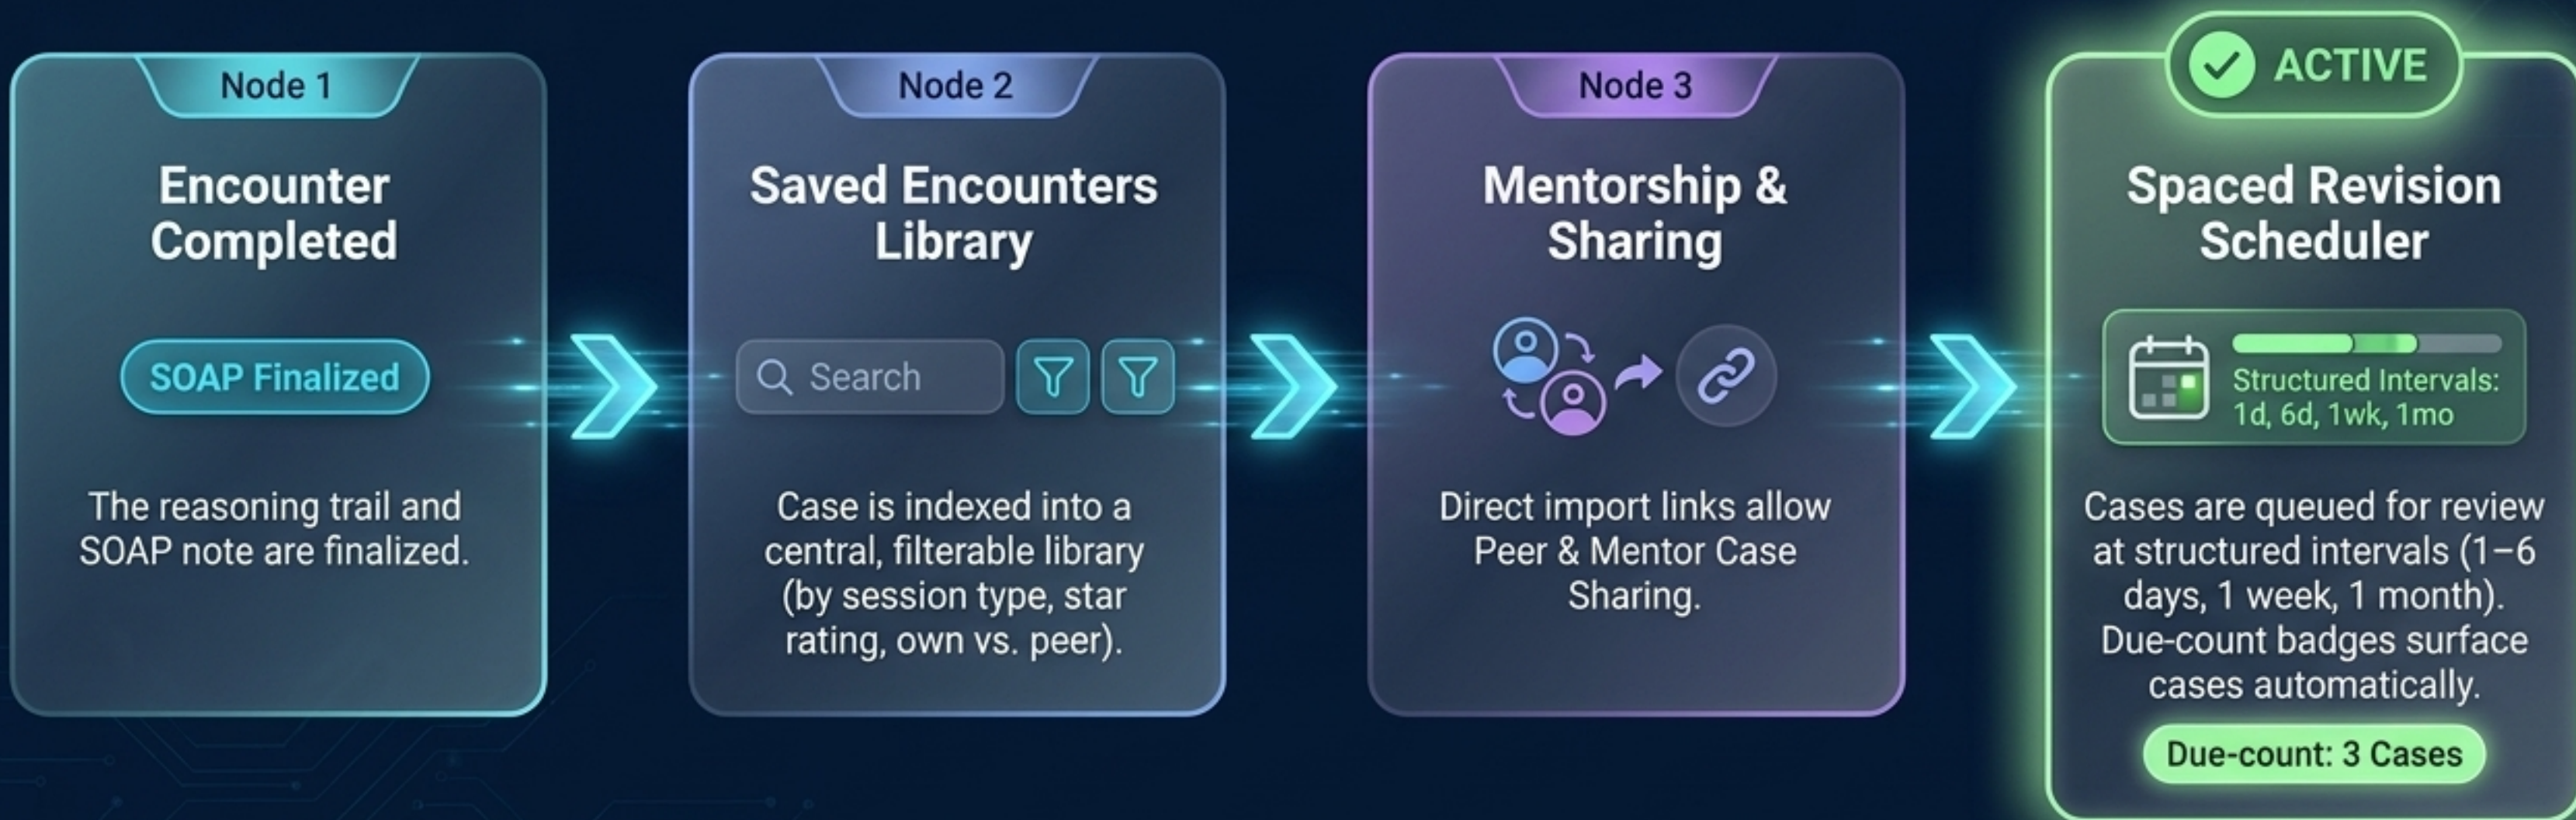

Dialogue Analytics

Quick Quiz

MCQ reasoning drills (USMLE, NEET PG, MRCP, PLAB patterns) with Dialogue vs. Analytics toggles.

Progress bar

The Retention Engine: Post-Workout Recovery

Measuring Mastery: Learning Analytics

Monthly Activity

30-day Activity Heatmap

Specialty Focus

3 Specialties Explored

Specialty Engagement & Focus

Tool Utilization

Session counts tracking module and bench usage

The Learning Portfolio

The Portfolio & Featured Encounters: A curated showcase of top diagnostic cases, fully downloadable as a .txt file for residency applications or evaluations.

[Download Portfolio \(.txt\)](#)

The Learner Journey: A Complete Clinical Workflow

Value Across the Continuum of Care

Medical Students

Goal: Build foundational reasoning early.

Key Tools: Exploratory practice via [L1/L2 Level Bench](#).
Using [Lesson Bench](#) and [Discussion](#) to safely deconstruct topics before attempting simulations.

Residents

Goal: Sharpen diagnostic speed under pressure.

Key Tools: Unsupervised, scored OSCE-style pressure via [L4-L6](#) tiers.
Rigorous testing using [Case Bench's Quick Quiz](#) and [Differential Challenges](#).

Educators

Goal: Scale mentorship and assess reasoning trails.

Key Tools: Curating and deploying cases via [Peer & Mentor Case Sharing](#).
Auditing learner logic in [Saved Encounters](#).
Building curriculum with unlimited [Educator](#) access.

Seamless Deployment: The Access Model

Level 1 (Free for All)

Free forever, no expiration.

- ✓ Setup/BYOK
- ✓ Lesson Bench
- ✓ Case Simulator
- ✓ Practice
- ✓ Case Bench
- ✓ Level Bench

Level 2 (Paid/Extended)

₹2,999/year (Special offer;
Regular ₹4,999)

- ✓ Adds Discussion
- ✓ Analytics
- ✓ Saved Encounters
- ✓ Spaced Revision
- ✓ Quick Reference Library

Premium Clinical Suite

Persona-Based Grants

Student Persona

- ✓ 30-day free Level 2 trial upon account creation.

Educator Persona

- ✓ Unlimited Level 2, free forever, no time lock.

Mastering Clinical Reasoning

VibeRounds transforms AI from an answer-generator into an intelligent clinical sparring partner. By marrying absolute data privacy with rigorous Socratic pedagogy, it ensures that the next generation of physicians train their diagnostic reasoning, not just their recall.
